Family Motto
Wedi cyflawni'r gorau...rhagorwch eto
When you've got the best...improve it.

The Bower is a traditional Pembrokeshire farmhouse overlooking St. Brides Bay and the offshore islands of Skomer, Ramsey and Grassholm. We are in walking distance of Broad Haven, sandy beach and the Pembrokeshire Coast National Park. Close by are superb riding facilities, all types of sailing, windsurfing, diving, sea and fresh water fishing and numerous golf courses. This is one of the sunniest parts of Britain, and our mild winters make holidaying all year round a reality.

This is a working sheep farm where we breed and train horses and keep ornamental poultry. This is the place you have been planning to go to.....Where fantasy becomes reality.

Our historic family have been living and working in this area since the sixteenth century and our knowledge is at your disposal.

Our home cooked scrumptious food and friendly, relaxed atmosphere will fill you with cheer and warm your heart.

Your host is a raconteur of repute !

This coastal strip is much drier and warmer than the rest of Britain in the winter months.

Within a short driving distance are a selection of theme parks and other exciting entertainment for the younger generation.

We love animals and are pleased if you bring your dogs and horses with you on holiday.

We have had distinguished write ups in "Holiday Which" and "The Daily Mail". Quotes from our visitors book include "This is something special", "Came for one night, stayed for six, what more need we say"; "Our children loved feeding the lambs and watching the ducks dive on the pond"; "Now we know where the 'Great' is in Britain".

One family gave their children the option of going to Euro Disney for a week or back to the Bower for the third time - we admired their choice !

It's no exaggeration to say "We've got the lot!" except perhaps for the hoards of holiday makers that many other parts of costal Britain attract - and there is no special "Welsh Welcome" there !

This is the "in" part of Britain to visit from October to April, when the large colony of grey seals are having their pups. When the wind whips the surf into spectacular sights. When Windsurfers and sailors compete all winter. When the winter migratory birds make it an ornithologists paradise. When country sports are at their best - Pembrokeshire has 3 packs of hounds, all hunting 3 days a week providing something different, colourful and interesting to see.
